Absence of Confirmation of "Deals" Causes Selling at the Opening.

A Fairly Firm Undertone Prevails Nevertheless and Hopes of Later Strength Are Expressed-Copper

NEW YORK, Oct. 24.-The Stock Market opened fairly active and displaying very irregular tendencies. Union Pacific and St. Paul which were the pre-eminent features in yesterday's speculation were both somewhat reactionary, probably because of the absence of any definite intel-ligence in regard to the expected developments in the affairs of these companies

Little was done in the higher-priced railway stocks which have been so promi-nent of late, but Pennsylvania and New York Central continued firm. Among the lower-priced issues. Eric, common, was firm and active. Another feature of the railway list was Minneapolis and St.

railway list was Minneapolis and St.
Louis which advanced sharply.

In the industrial quarter, the United
States Steel issues were active and dealt
in fractionally below yesterday's closing
figures. Little otherwise was done in
the industrial quarter. Amalgamated Conper was again weak on the legal reverse
the company suffered in the litigation
over the Parrott mine yesterday. People's
Gas was also rather heavy, presumably on
the announcement of the listing by the
Stock Exchange of a further amount of
the company's stock. Little or nothing
was done in the local traction shares.

London was not a factor of weight in
this market either in respect of the quotations forwarded from that quarter or
the subsequent dealings here for foreign
account. Virtually nothing new was presented for consideration upon the opening
of business.

There was a fairly firm undertone which

Union Pacific and other securities that were especially active yesterday, showed the most pronounced disposition to recede, but the list generally went off fractionally after the first transaction. There were a number of exceptions to the general rule, Balti-more and Ohio and Chicago Great Western being conspicously strong. The mar-ket was dull in addition to its slight tendency to go off and there were evidences that the little boom of yesterday was nothing more than a "turn" after all. despite the rosy predictions in some quarters yesterday.

Mr. Gates has at last secured control of the Colorado Fuel and Iron Company and that he is arranging to sell out to the Sizel Trust. There is no confirmation of the story.

Amalgamated Copper was again weak this morning, getting as low as 87 and a raction at one time. The decision agains the company in the litigation over the Parrott mine seemed to be the cause of the selling of the stock as much as anything, but there is a theory quite generally held that the insiders are accumulating the stock at these low prices.
